DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE			
<p>This corner building basically follows the exterior design of the corner building at 1 West Biddle Street, for they were originally intended and built to be architectural parodies. 17 West Biddle has been modified to accomodate commercial activity on the lower two floors. On the ground floor a recessed corner entrance is flanked by large plate glass store windows. The second story features four symmetrically placed, flat, single hung windows with transoms on the front facade which are defined by wooden pilasters, sills and lintels. A wooden cornice with a row of dentils visually separates the second and third floors. The side facade is treated in a similar manner. The third, fourth and half stories are of the same design and materials as 1 West Biddle Street.</p>
